Mr. J. C. Nolte has contracted with the Iowa-State Building and Loan Association for a loan to build a house on his vacant lot on First street. Mr. Nolte has the house rented and the rents will nearly or quite pay his monthly dues to the company, so at the end of seven and a half years Mr. Nolte will have paid a sufficient amount and have his house clear, without having paid out a dollar of his own money.

This is the practical working of a good and reliable Building and Loan Association such as the Iowa-State is John D. Bahagge is secretary and treasurer in this city.

The Masons of this city held a public installation service at the Baptist church last Wednesday. The services were very impressive and the address by Hon. Thos. S. Pettit, of Owensboro, was a splendid contribution to the literature of this order and a credit to his ability as a speaker and orator.

What has become of the Commercial Club? There is lots of work for it to do and we hope it will come together and do it.

There is a genuine awaking among our people on the subject of building houses, and most every man you meet has a plan in hand and is discussing it. There is no question but what houses are in demand and we have need for them, and the more our people wake up to this fact the better it will be for the town. There ought to be at least fifty houses going up here right now.
The railroad company found it necessary this week to blast out of the way the huge rock overhanging the track in the Shillman cut above town. It has hung suspended from the embankment ever since the cut was made, and has always been an object of some terror to travelers. The recent rains caused it to loosen its hold partially on the bank so it became necessary to remove it. Dynamite did the work, and now it would be difficult to locate but little of the once imposing pile.

GOD ENOUGH!

Keep it up, and we won't have any cause to complain, although it is no money in our pocket. Our new "cut-rate" tariff which we put in force last week, has had the desired effect. We are selling lots of our own make Clothing—the best in the city—and a few weeks more of this sort of work will bring down stock to the proper level. In the meantime, the same low-down no-profit prices prevail, and bargain-hunters will find a splendid field to invest their spare change. We had quite a run on our stock of Overalls, but we can still supply a moderate demand. They are wonderful values for the money we let them go for; but there is a limit to all things—they cannot last much longer. But while they do last, it will be fun for the people, but no money for us. But it can't be helped.

WOODSON'S WEAL.

A Memphis Young Man of Worth Becomes Luckily Poor.

Upon the principle that none but eagles soar with eagles, the Appraiser reported yesterday sought out Mr. Chas. E. Woodson, the extent of whose good fortune is only excelled by his handsome appearance. Mr. Woodson was the lucky holder of a one-fourth part of the \$25,000 in the December drawing of the Louisiana State Lottery, which drew the capital prize of \$500,000. The Appraiser found Mr. Woodson hard at work at his desk, holding the responsible position of head book-keeper and chief of the business office of the well-known retail dry goods establishment of Hunter Brothers, corner of Main and West Streets. He is a gentleman of fine appearance and, apparently, a genial, sociable companion. The Appraiser reported that he had the following question: "Well, Mr. Woodson, I suppose your ship has come in?" "How is that, sir?" said he, and then, as if catching on to the idea, continued: "Oh, yes, sir. I made the 'big' last drawing." In reply to further inquiries, Mr. Woodson elaborated: "I held the lucky number, deposited it with my bank, received the returns (\$15,000) promptly, and have not yet decided what investment I will make. I own a valuable farm which has been receiving my attention very closely, and I will place a portion of it there in the way of improvement. I have received any amount of advice as to how I shall invest it, but I have decided to receive my place here on the 1st of January and devote a good part of next year to travel over the United States, and perhaps my trip will go to Europe. I am a native born West Tennesseean. Fayette county being the place of my birth and early training. I received a good literary education, which was completed at Lexington, Ky., but could not be more than a few years of study. Keeping at Leddon's Commercial College in Memphis. I have held responsible positions at Menken's and the house I am now engaged in. I have been married the past five or six years of having one or more Louisiana State Lottery tickets more as a pastime than anything else. You may rest assured I was surprised to discover that I had secured the lucky number. I will still continue to patronize the lottery in about the same way. I am thirty years of age, have been married, and have two sons who now reside in my home. Good-bye, sir."—Shall we hear you?

MOOLEYVILLE.

We had a terrible wild storm last Sunday night. No houses escaped however. A great number of hogs have died in this vicinity, and those who have butchered have lost quite a portion of their meat, owing to the warm weather.
Mr. Thomas Broady has gone to Louisville to attend school. Our best wishes for him that his earnest efforts may be crowned with success.
The Vic bunch, of Elizabethtown, has been visiting friends and relatives at this place. Many regrets are expressed by his many lady friends that his stay is so short.
Mr. Davis Cunningham, son of J. D. Cunningham, is very ill at this writing with influenza.
We had a grand little girl at Miss Lizza Bellwood's last Tuesday evening. All enjoyed themselves highly. Phillip be sure to be at our next party.
Mr. Frank Elder, after a three months' stay at his father's place, has returned to his Southern home in Arkansas near Lake Village. We heard him speak often of a Miss Dessie near Clover in highest terms.
Mr. R. E. Mattingly and wife of the place are visiting her father, Mr. Dick Mattingly, near Sinking Creek.
Peach trees in bloom in January, this year very much like a joke on nature, for we will realize that it is only intended for us, when time proves the fruit crop to be an entire failure.
